Maths

This week’s maths home learning will continue to focus on recapping our multiplication and division skills. There are also two Extension Maths questions for you to have a go at.

Task 1
Maths: Factors. There are 2 Factor investigations to have a go at.

Task 2
Maths: There are 2 multiplication challenges to have a go at. Pick one, then challenge yourself to have a go at the other one too!

Task 3
Maths: Please do the short division without remainders. There are 3 levels so choose the one you think is right for you, then do the others if you wish. Have a look at Term 5 - Week 2 - Maths Support - Division 2-Digit and 3-Digit Numbers if you need any support.

Task 4
Maths: Please do the short division activity sheets. There are 3 levels so choose the one you think is right for you, then do the others if you wish. Have another look at Term 5 - Week 2 - Maths Support - Division 2-Digit and 3-Digit Numbers if you need help. For the matching questions simply write these in your book.

Task 5
Maths: Complete the MyMaths work set on multiples. Go through the lesson part first if you need a reminder about what multiples are.
This week’s English Home Learning will follow the same structure that we have used previously of a writing task lasting 2 days, a comprehension task, a spelling task and a word task. It is up to you what order you choose to do the tasks in.

**Writing Task Day 1**

English: Plan a character description based on a book you are reading or perhaps a story you have recently listened to. Details are on the task sheet **Term 5- Week 2- English Task 1 and 2** which can be found on the school’s website.

**Writing Task Day 2**

English: Write up the character description you planned out yesterday. Details are on the task sheet **Term 5- Week 2- English Task 1 and 2** which can be found on the school’s website.

**Reading Task Day 3**

English: Please do the reading comprehension activity Invasion! There is a crossword to do as an extra challenge if you wish at the end.

**Vocabulary Task Day 5**

English: Complete the Dictionary game activity!

**Spelling Task Day 4**

English: Complete the spelling activity using words ending in ‘-ture’.
Science

How are Sounds Made?
Click on this link. It will take you to the BBC Bitesize website.
https://www.bbc.co.uk/bitesize/topics/zgffr82
Watch these clips and do the fill in the gap activities at the end of each clip:
1. How are sounds made?
2. How are sounds detected
3. What is pitch?
4. What is the volume of sound?

Art

Create your own Roman Mosaic using the Term 5- Week 2- Art- Create a mosaic file to help you! This can be found on the school’s website.

History (Task 1 and Task 2)

Read through the file Term 5- Week 2- Roman Roads Presentation which can be found on the school’s website. This explains how the Romans constructed their roads and the importance of having a good network of roads for moving troops and supplies around the country.

Task 1 Have a look at the main towns and cities that existed in Roman times. At the time, though, those places had Roman names rather than the names that we know them as today. For example, London was known as Londinium. See if you can find out any of the other Roman names for towns and cities across the country.

Task 2 The Powerpoint mentions the Fosse Way, which was a Roman Road that stretched across the country from Exeter in the South, to Lincoln up in the North of England. See if you can find out what other towns and cities it went through (such as Bath) and follow the route on a map. If you can, draw the route on a map to show the places it went through.

Don’t Forget!

TIME TABLE ROCK STARS
