Great!
76 ÷ 2 = 38

1. How many 2s are there in 7?
2. How many are left over?
3. How many 2’s are there in 16?

Great!
90 ÷ 5 = 18

18

5 9 4 0

1. How many 5s are there in 9?
2. How many are left over?
3. How many 5's are there in 40?

Great!
145 ÷ 5 = 29

1. How many 5s are there in 1?
2. How many are left over?
3. How many 5’s are there in 14?
4. How many are left over?
5. How many 5s are there in 45?

Great!
362 ÷ 2 = 181

1. How many 2’s are there in 3?
2. How many are left over?
3. How many 2’s are there in 16?
4. How many are left over?
5. How many 2’s are there in 2?

Great!
512 ÷ 4 = 128

1. How many 4’s are there in 5?
2. How many are left over?
3. How many 5’s are there in 11?
4. How many are left over?
5. How many 4’s are there in 32?

Great!
